Subject Re: VB - Lead based paint calculation

I do not feel that a meeting on the lead based paint abatement is warranted until EPA and CDPHE has received written feedback from CEASE (as discussed in the last working group meeting) regarding the process that determines if a home will receive exterior lead paint abatement by the Superfund Program and EPA/CDPHE management has had an opportunity to respond to the concerns.

I have stretched the Superfund law as far as I can in justifying exterior lead based paint abatement at the VB/I70 Site. Any changes to this policy will require joint agreement by EPA and CDPHE management.

In order to resolve this issue in a timely manner, I would appreciate receiving written feedback from CEASE by Feb 15.

Subject: VB - Lead based paint calculation

Just trying to foster (fester?) communication ...
Thought others might be interested in this as well. Here is the
spreadsheet from Victor that was used to calculate lead-based paint
areas for VB structures. Also included is the Working Group email with
attachment describing how calculation will be used, in case you did not
receive it before. Based on last Thursday's meeting, I suspect others,
besides me, have questions on this calculation.

So, Victor, if possible I'd like to request a technical meeting to
discuss the issue. We have precedence for this practice, as we used to
hold these technical meetings in the past to discuss the details of an
issue. What do others think, a useful exercise of our time? Thanks for
your consideration.
Gene

Subject: Lead abatement spreadsheet

The spreadsheet that Bill Brattin prepared to determine if lead abatement is needed at a property is attached.

Subject: Working Group Meeting

In preparation of the Working Group Meeting scheduled for 9:00 AM on Jan 27 at the Swansea Rec Center, I have attached the criteria prepared for conducting exterior lead based paint abatement under the Superfund Program. A discussion of this memo will be included during the next Working Group Meeting. Please contact me if you have any questions regarding this memo or are unable to open the document.

To assist in the facilitation of the Work Group Meetings, a contract has been awarded to George Weber. He may be contacting you over the next couple of weeks to assist in preparing the agenda for this next meeting.
